

The luxury Glamping Resort

FDomes Glamping are out-of-the-box geodome kits, providing deluxe outdoor lodgings that offer a hotel-like standard.

Why FDomes? Why Glamping?

Because of their unconventional shape and unique, airy interiors, geodesic domes stand out among other types of tents and outdoor accommodations. They are also very 'Instagrammable', meaning that your guests will happily promote your camping site on social media. On top of that, FDomes quirky look generates frequent attention of international media.

Build anywhere, use unused land

You can set up FDomes Glamping in places where hotels are all but impossible to build.

Reach new group of guests

Glamping attracts new types of customers, including those who like the idea of staying outdoors but seek for spots having all mod cons.

Achieve higher income per night

Sleeping in a dome is a unique experience and tourists are willing to pay premium for it.

Each FDome Glamping is enriched with our Premium Module

A luxurious all-in station divided by function, including a bathroom, a kitchen, a mezzanine and a bedroom, to create a chic space for your guests!

An aerial photograph of a lush forest. Four geodesic domes, each with a green and white triangular pattern and a black chimney, are situated on elevated wooden platforms. A winding path made of reddish-brown gravel or mulch cuts through the forest, connecting the platforms. The forest is composed of various types of trees, including tall evergreens and deciduous trees with green foliage. The lighting suggests a bright, sunny day.

Use Unspoiled Locations

The real luxury comes in the proximity to a bevy of natural diversions.

Create a Glamping Resort like the one in the pictures

5 x FDomes Glamping40 with glass door,

Forest Green membrane,
