

PRICELIST

FDOMES | FENCING SYSTEM

Galvanized post

80 x 40 mm cross-section post, made from galvanized sheet metal with a wall thickness of 1.5 mm. It is finished with a metal cap on top.

Powder-coated post

80 x 40 mm cross-section post, made from galvanized sheet metal that is powder-coated. It has a wall thickness of 1.5 mm and is topped with a metal cap.

Steel post base

Ideal for resilient surfaces – a tested, robust, and long-lasting solution.

Ballast system

Enables rapid assembly and disassembly. Ballast available for separate purchase.

ANKERD system

Ground anchoring system, ensuring stability without the necessity of concreting. Available in 2-pin or 4-pin configurations.
